SunCycle's Partnership Program is a great way to offer an inexpensive and fun way to get around and explore El Paso. Added bonus: hopping on one of our bikes gets you some exercise while offsetting your carbon footprint.

By becoming a SunCycle Partner, you will receive passes that you can distribute to your employees, guests or clients. The passes provide access to the 160 bikes located at sixteen stations between the University of Texas at El Paso and Downtown - with even more bikes and stations planned for the future. In addition to access, riders will receive SunCycle promotional material to help explain how to use the system and spread the word about SunCycle and your company's commitment to your employees, guests and clients.

Whether it's a downtown meeting, a quick run to the post office, an afternoon exploring El Paso or an important coffee date, SunCycle is a great way to leave the car behind. Best of all, we have options for organizations of all sizes, enabling you to choose the level that works for you. Call us at (915) 212-BIKE for more information.

ANNUAL MEMBERSHIPS

Bulk annual memberships are offered at a discount. Customers can activate and distribute memberships to recipients (Customer retains responsibility for overage charges) or can require recipients to activate (recipient becomes responsible for any overage charges). This option is ideal for downtown employers seeking to provide an alternative transportation mode for employees.

DAY PASSES

Bulk day passes are offered at a discount. Customer purchases and distributes promo codes to recipients who then activate passes with a credit card. For this option, the recipient agrees to retain responsibility for overage fees. Day passes are ideal for hotels, bars, restaurants and special event promoters seeking an inexpensive but impactful way to enhance an event or reward their employees, customers or clients.

SPECIAL EVENTS

Suncycle will operate virtual kiosks, which permit users to identify check-in and check-out locations for special events, providing more flexibility than permanently located station kiosks. This option is great for special events, including pub crawls and historic home tours.

OTHERS

Have an idea? SunCycle is open to innovative partnerships - let us know what you're thinking, and we'll work with you to make it happen!
